To The Parents of my Practice

After years of searching for the right "like-minded" pediatrician to join our practice, I am happy to welcome Dr. Ken Akey, M.D., F.A.A.P., as our full-time partner. I will continue seeing patients two days a week for many years to come, Lord willing.

I have known Dr. Ken for many years while he enjoyed his own large solo pediatric practice for thirty years next to CHOC in Orange. He trained at U.C. Irvine, School of Medicine and did his pediatric residency at CHOC. After practicing in Idaho for the last one and a half years, he now returns. Dr. Ken and his wife of 37 years, Laurie, have four children and three grand-children here in Southern California. Laurie will be in charge of our front office, especially helping with phone call questions.

Dr. Ken has the same philosophy of parenting and pediatrics in general as I do, so he is the "perfect fit". His special interests are preventative medicine, nutrition, and developmental pediatrics. He enjoys newborn hospital care, and will soon be attending our babies at Mission and Saddleback hospitals.

Dr. Ken Akey begins January 29, and will be in our office 5 days a week for your convenience. I am pleased to have you all meet Dr. Ken and enjoy his compassionate pediatric care.

Best wishes,

Dr. Bill Sears
